

Pre Conference Workshop Cancer Risk Assessment And Genetic Counseling

Wednesday November 18

Chairs: A Oluwatosin (Nigeria), K Blazer (USA), F Olopade (USA)

This Pre-Conference Workshop will focus on fundamental concepts, case-based learning and practical tools for clinicians who want to integrate genetics into their clinical practices. Provision of comprehensive cancer risk assessment and genetic counseling is a feature of high quality cancer management and saves lives. The target audience includes nurses, genetic counselors and doctors (oncologists, gastroenterologists, gynecologists, primary care physicians and surgeons) from community and academic practices.

Submit a Case

In order to tailor this workshop to your experiences, barriers and practice needs, we encourage you to submit a challenging or interesting case from your practice related to the use of genetic counseling and testing for cancer risk assessment. You can also submit cases who did not get testing but are challenging for you. We will select as many cases as possible from these submissions to be presented and discussed during the workshop. If you would like to submit a case, please complete the attached form and submit it with supporting documents (anonymized pedigree, test results, etc) email to Kristyna Hulland at khulland@bsd.uchicago.edu. Deadline for case submission is Saturday, November 14, 2015.

Program

Session 1	Fez 1: 9 – 10:30 AM
A Oluwatosin (Nigeria)	Welcome, Introduction
K Blazer (USA)	Cancer genomics 101: Introduction to clinical cancer genomics and identification of at- risk patients
D Huo (USA)	Epidemiology of inherited breast cancer
Session 2	Fez 1: 11 AM – 1 PM
F Olopade (USA)	Familial breast and ovarian cancer syndromes: Results from the African continent and other countries in the diaspora
P Adejumo (Nigeria)	Establishing a cancer risk and prevention clinic in Nigeria: Lessons from the field
K Blazer (USA)	Overview of the hereditary colon cancer syndromes

Join the growing field of Cancer Risk and Genetic Counseling. Bring cases with family histories to review as part of this workshop. Email Kristyna Hulland (khulland@bsd.uchicago.edu) with questions about the workshop or case submission.

Cancer Risk Assessment and Genetic
Counseling**

November 18, 2015

Location: Fez 1

Time: 9:00 – 13:00

Case Presentation from Your Practice

Your Name: _____
(Please include your name on all documents)

Your Practice Discipline (MD, RN, etc): _____

Your Practice Institution: _____

Date _____

Use this form to describe one or more challenging or interesting case from your clinical experiences to present during the AORTIC pre-conference workshop.

Please respond directly on this form under each numbered prompt below. Questions on the form will move to accommodate the amount of space needed for each response. Email the completed form along with scanned copy of the family history pedigree and an *anonymized copy of relevant patient or family genetic test results (if testing was done) to: Kristyna Hulland khulland@bsd.uchicago.edu **NO LATER THAN Saturday, November 14, 2015.**

*All personal patient identifying information **MUST** be blocked or removed from all documents

1. Case synopsis (pertinent details of the case and the presenting problems):

2. **Draw the family history (pedigree) as a separate document. It can be hand drawn or electronic format. If hand drawn make sure pedigree is neat with clearly written ages and notations. Be sure to include icons and a legend. DO NOT include any patient identifiers (no names or other identifying information). Convert the document to a jpg, tiff, pdf, or ppt file to send with this completed form by email (see previous page).**

3. **If genetic testing was performed, please include an copy of the genetic test results. Remove all patient identifiers before converting the document into a jpg, tiff, pdf, or ppt file to send along with this completed form by email see previous page).**

4. **If testing was not performed, please explain the reason here:**

5. **If there were any challenging psychological, ethical, legal, insurance or familial issues to discuss related to the case describe briefly:**

6. **List TWO or more main reasons you are presenting this case:**

Thank you for submitting your case!
